

Excalibur, Expert, and Excess

The year your instrument was manufactured is indicated by the first two digits of the serial number.

For example, serial number **96**0306 indicates that the year of manufacture is 1996 and serial number **00**1015 indicates that the year of manufacture is 2000.

Although we have tried as hard as possible to be accurate, we admit that sometimes the first 2 digits may not be exactly right. If you wish to be 100% sure you will have to unscrew the neck and look at the date stamped on it.
